

Our mission & vision

Our mission is to connect AI communities across the world to share ideas and content with each other. We want to enable AI enthusiasts and professionals to join local user groups, connect with like-minded peers, or start their own chapters.

Where Large Language Models Fails **Today**

- Example where the count of strawberry is wrong
- Example where LLM won't solve a simple puzzle

The Gemini logo features the word "Gemini" in a blue-to-purple gradient font, with a small purple four-pointed star above the 'i'.

Agentic

AI

AGENTIC AI

**MADE SIMPLE
FUN ANIMATED STORY**

What is Agentic AI

Agentic AI integrates **large language models (LLMs), machine learning, and enterprise automation** to create autonomous AI agents capable of **decision-making, goal-setting, problem-solving, and adapting to unstructured environments**, unlike rule-based AI.

Agentic AI Vs. Generative AI

Agentic AI

- ➔ Autonomous
- ➔ Goal-Oriented
- ➔ Real-time Environment
- ➔ Utilize Tools and APIs
- ➔ Continuous Adaptation
- ➔ Autonomous Systems
- ➔ Independent Decision-Making

Vs

Generative AI

- ➔ Creative
- ➔ Output-Oriented
- ➔ Content-Based
- ➔ No external tools
- ➔ No adaptation from real-time
- ➔ Content Creation
- ➔ Make decision based on input patterns

Risks & Challenges of Agentic AI

Risks

- ✓ Bias & Fairness Issues
- ✓ Security Threats
- ✓ Loss of Human Control

Challenges

- ✓ Ethical Concerns
- ✓ Regulatory & Compliance Issues
- ✓ Accountability & Transparency

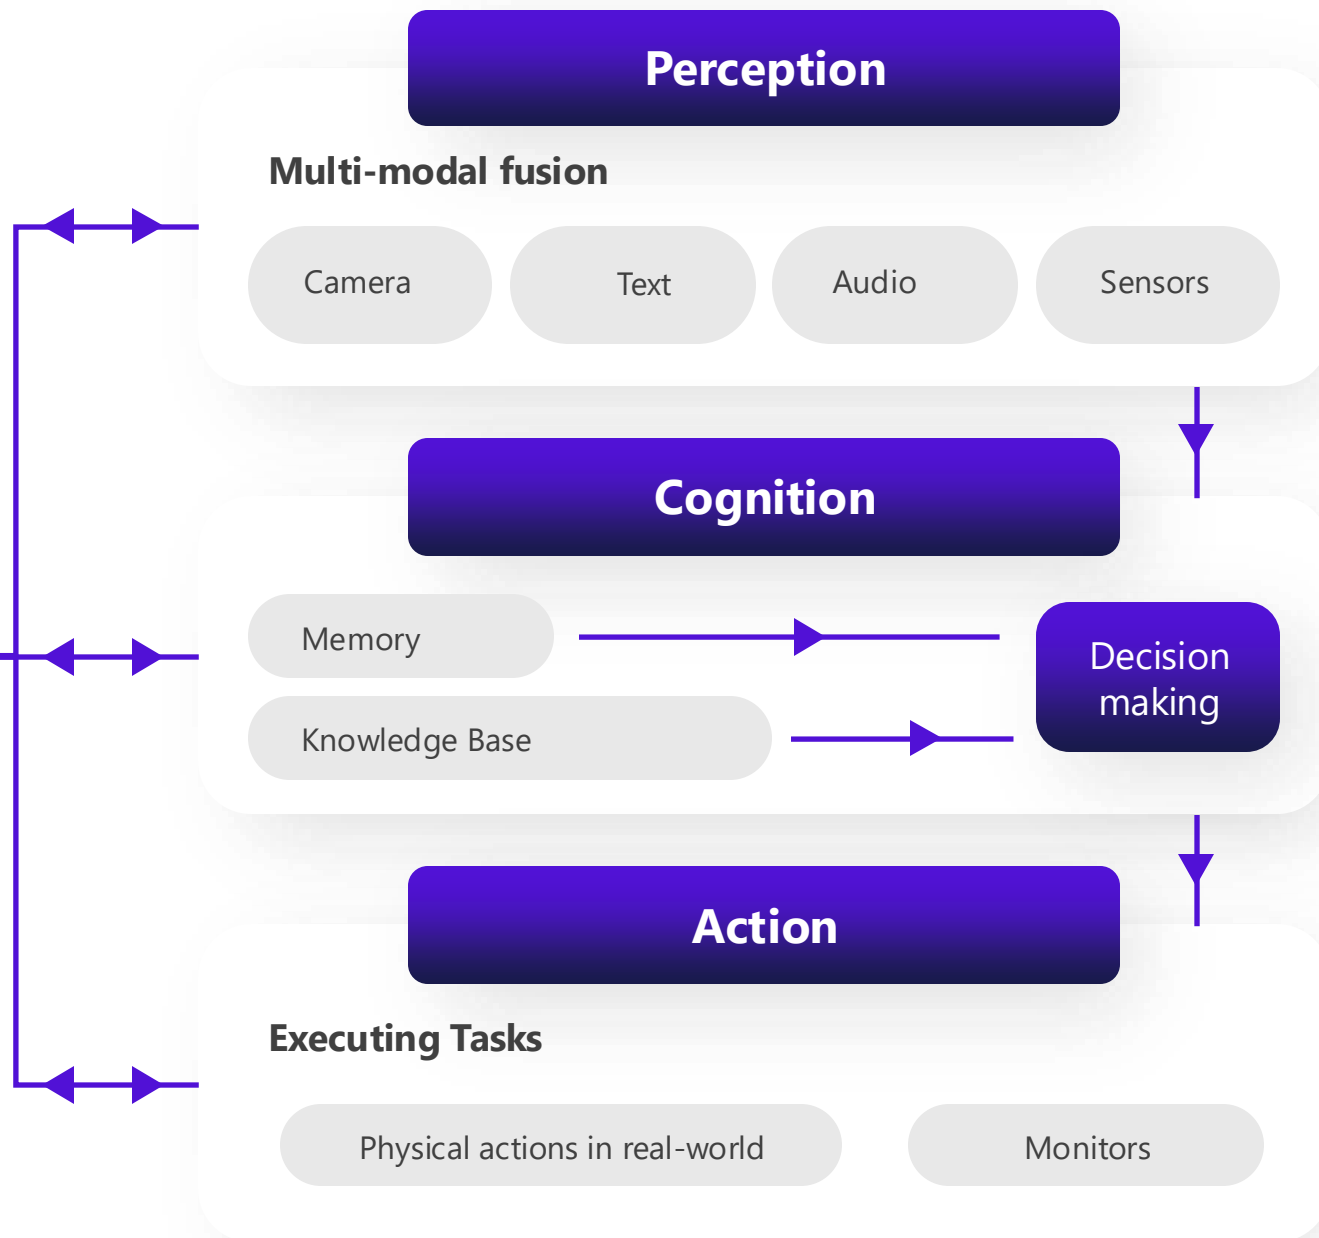

Agentic AI System

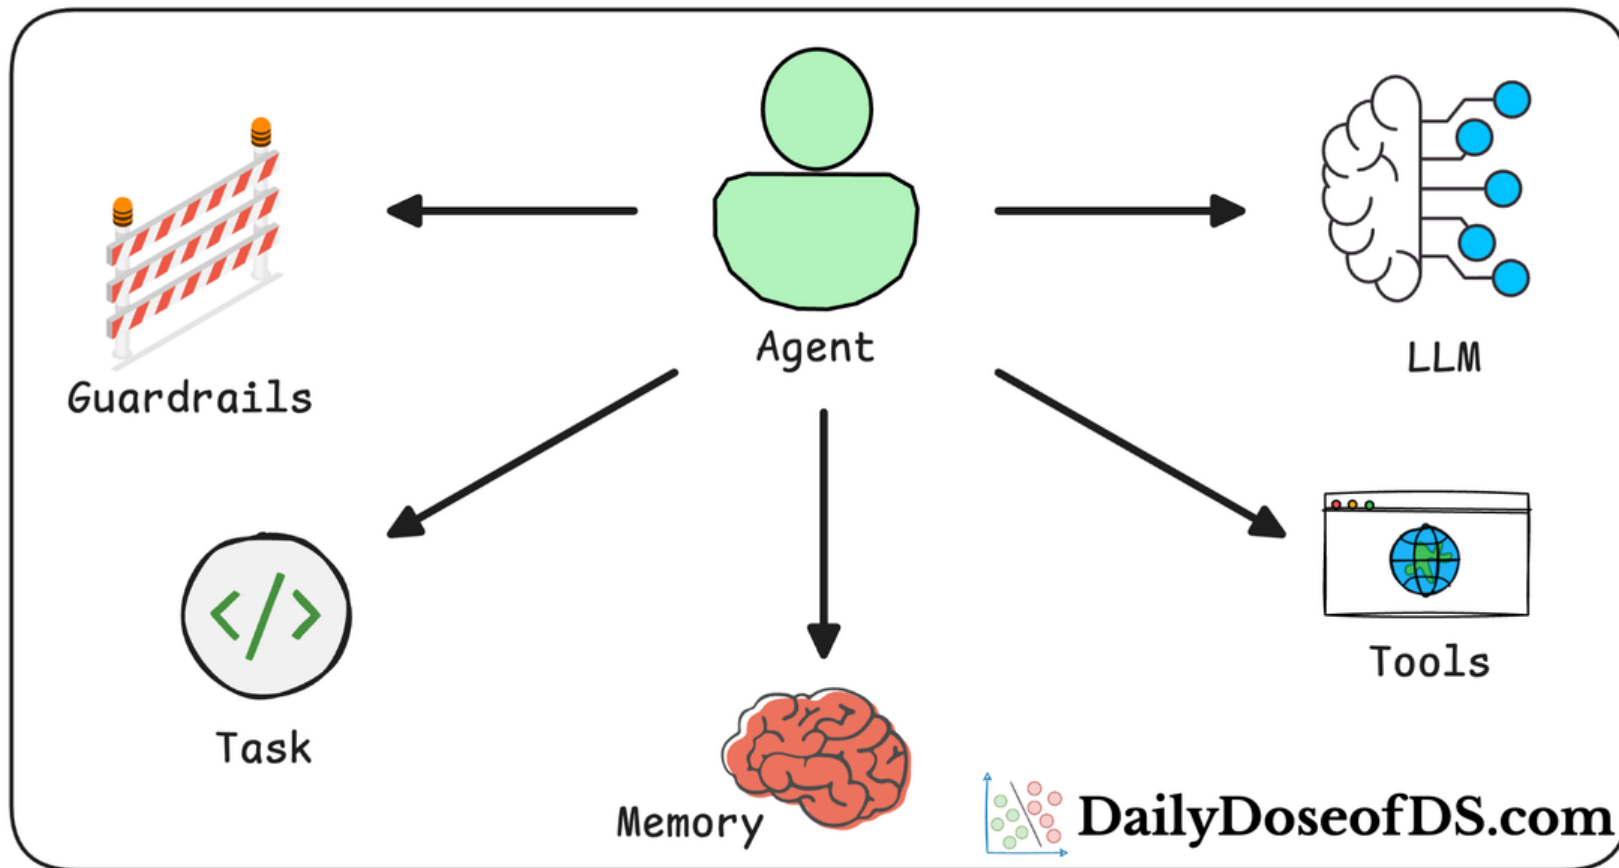

User Request

AI Agent

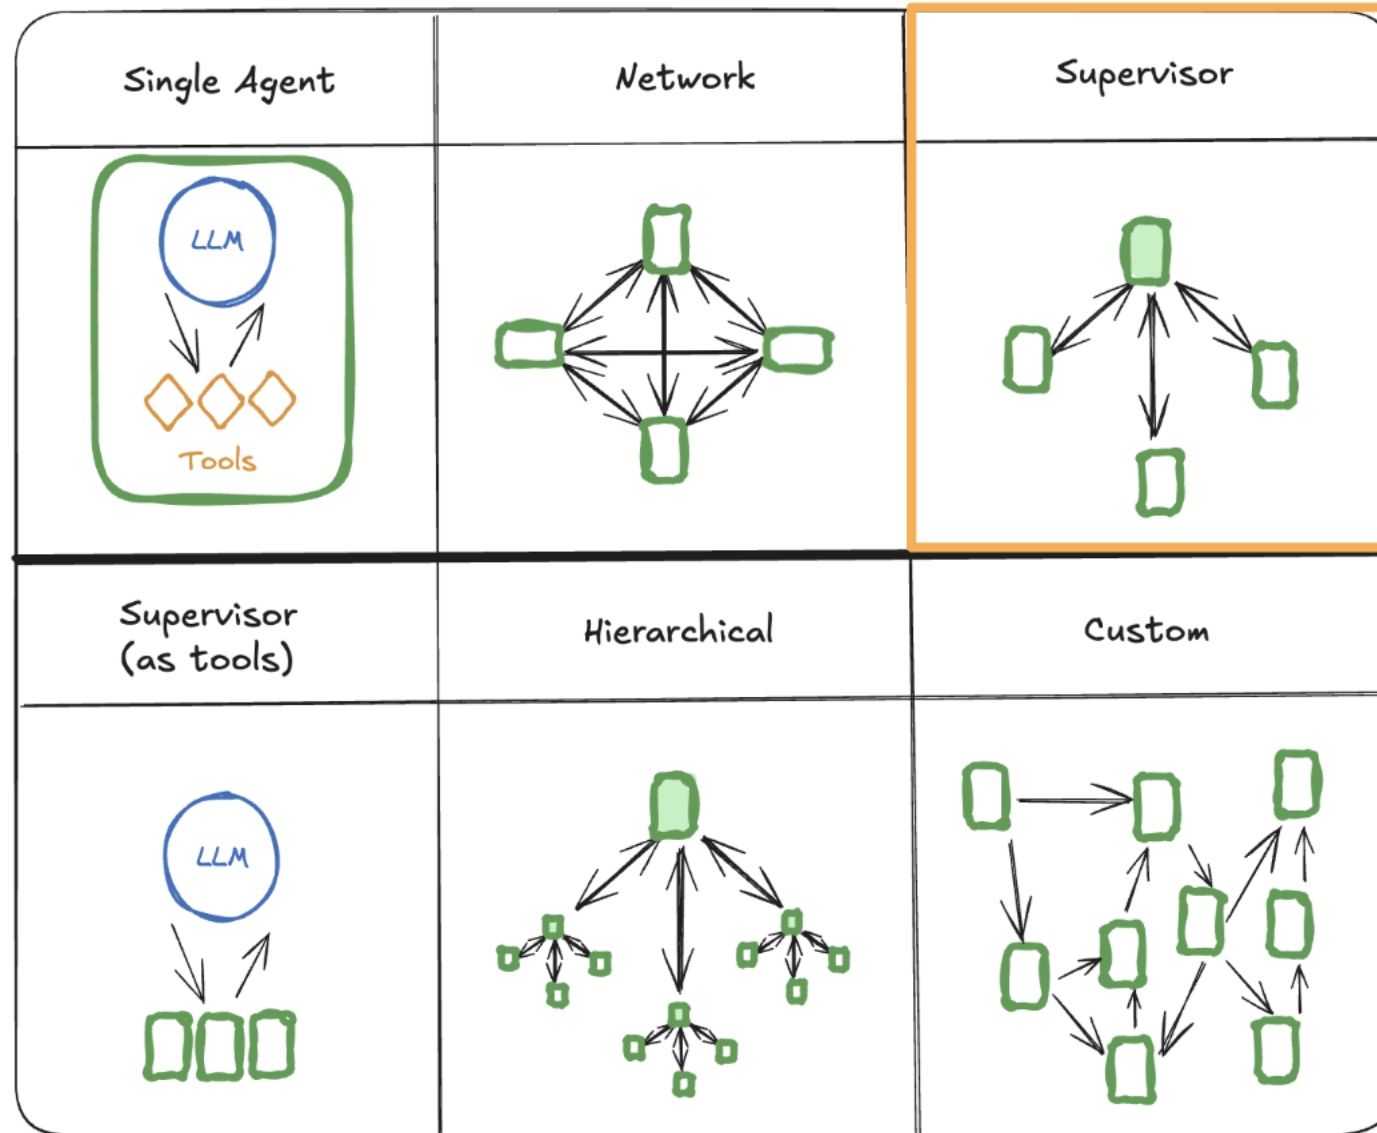

Concepts in OpenAI Agentic Framework

Examples

- Single Agent - Hello World
 - Print full result and see what happens
- Multi Agent – Handoff / Routing example (language example)
- Agent Patterns
 - Agent as Tools
 - Parallelization Re-Run
- Input Guardrails (Math Homework)
- Output Guardrails
- Sub Agents
 - Financial Research planner (python -m examples.financial_research_agent.main)

Patterns

Conclusion & Key Takeaways

Agentic AI is revolutionizing **automation beyond simple processes**. Businesses must adapt as AI shapes the future of work. Ethical **AI development** is essential for responsible use, and AI will continue evolving, driving innovation and transformation.
